

Features

1. Contactless

Payment via Contactless, universal contactless symbol 

- A KFH Debit Card-i feature (VISA and "MyDebit") for an easy and fast way to pay your daily purchases.
- A secure chip technology to help spend less time paying with cash and reduce long queue at cashier counters.
- An easy wave or tap of KFH Debit Card-i without PIN number for transactions below RM250.
- An easy wave or tap of KFH Debit Card-i with PIN number for transactions above RM250.

2. Chip & PIN

- Chip & PIN card is a PIN-enabled card that allows you to make purchases at POS terminals with no signature required.
- Just key-in your 6-digit PIN (Personal Identification Number) code to authorize payment transactions.
- It provides the highest level of security for your KFH Debit Card-i transactions.
- PIN-based verification safeguards your KFH Debit Card-i card more effectively.

3. "MyDebit"

- "MyDebit" is a service offered to all KFH Debit Card-i cardholders for greater convenience and security when shopping or dining at participating merchant retail outlets nationwide displaying the MEPS (Malaysian Electronic Payment System) or "MyDebit" logo.
- It is simple! Insert your KFH Debit Card-i card into the merchant card terminal, key-in your KFH Malaysia's ATM PIN (Personal Identification Number) and obtain your sales receipt.
- The purchase amount is then directly deducted from your KFH Savings or Current account selected, allowing added convenience as no physical cash transaction is involved.
